

# MID-CONTINENT AIRCRAFT CORPORATION

Aircraft Sales, Insurance, Parts, & Maintenance  
1601 Hwy 84 • Hayti, MO 63851 • 573-359-0500 • 800-325-0885

September

2015

The wait is over. This month we'll be "handing over the keys" so you can fly the Thrush 510G and see how well it performs. We believe you will be impressed.

On **Thursday, September 10th** Terry Humphrey will be here at Mid-Continent Aircraft Corporation in Hayti to demonstrate the 510G and give on-wing checkouts so you can see

for yourself what the aircraft is capable of.

On **Monday, September 14th** you can see and fly the 510G at Stokes Flying Service in Earle, AR and on **Thursday, September 17th** we'll be at Landry Aero in Estherwood, LA.

Along with great food, and good conversation we'll be bringing you up to date with the latest information from Thrush and Mid-Continent along with special incentives to help put a new Thrush in your hangar.

Mark your calendar. See for yourself why so many operators agree that the 510G is one heck of an airplane.

We're looking forward to seeing you.

Aircraft Maintenance - A&P Mechanic wanted with PT6A and Sheet Metal experience.  
Electrical and Air Conditioning experience a plus. 401K Group, Excellent Benefits.  
Send resumes to: Kevin Jackson: kevin@midcont.com

AG-Aviation's most complete inventory of new and used aircraft, ground support systems  
with parts and maintenance service - backed by 66 years of experience and integrity.

These FAA approved STC (#ST5783WI-A) wire cutters are the newest advancement in wire cutter technology (Patent Pending). Three years of research and develop-

ment have gone into this unique design to create a safer platform for both plane and pilot. The blade has been heat treated to a level of 61 Rockwell Hardness which would be equal to the hardness of a file or chisel. Spacer blocks have been positioned at five points along the blade to increase strength and stabilize the blade in case of a wire strike. Adel clamps positioned along the trailing edge of the landing gear secure the brake line and do away with the standard black zip ties currently used to secure the brake line.

Storm Cutters are now available for every model of Air Tractor from the 300 through the 800 series. This is yet another advancement in safety for the ag aviation industry. Cutters are currently available in stock.
