Pratt & Whitney PT6A-34 Rebate Program

Pratt & Whitney Canada is further supporting agricultural operators by launching a new engine rebate program for PT6A-34AG-powered aircraft. Customers of new PT6A-34AG engines installed on new Thrush aircraft will receive a \$35,000 USD rebate paid directly to them.

“The agricultural segment is core to our business and the PT6A-34AG new engine rebate program is just one of the many ways we are demonstrating our ongoing commitment to serving the industry,” said Denis Parisien, Vice President, General Aviation, P&WC. “Programs like this one are about letting our customers know we are listening closely, we understand their needs and we are taking action to deliver bottom-line value to support their businesses.”

“Our dedication to the agricultural

industry is stronger than ever,” said Parisien. “Maintaining a prominent and supportive presence is a top priority as we continue to deliver innovative products and services that help agricultural operations run more efficiently and cost effectively.”

The new PT6A-34AG engine rebate program launched on December 8th and will continue to be available for a limited time and while quantities last. For more details on the offer contact Mid-Continent Aircraft Corporation.

Congratulations

Winner of The Canadian Aerial Application Association 2016 Wings of Agriculture Award is: Nicolas Girard.

Winner of the Mid-Continent Helmet Drawing this year at the NAAA Convention is: Tom Perrenow - NCFE Air Huron of Huron, SD
