

Planegram

CHARTING A CONFIDENT COURSE STORY MUSGRAVE

An astronaut with agricultural roots, Musgrave is a true renaissance man. He spent more than 30 years as a NASA astronaut and flew on six space flights and flew on six space flights. He performed the first shuttle space walk on the Challenger's first flight, conducted two classified DOD missions and served as the lead space walker on the Hubble Telescope repair mission.

Musgrave morphed from a young man who quit school to join the Marines to a person in need of a double-sided business card to account for all his academic accolades. Some students graduate with a double major - Musgrave has seven graduate degrees in math, computers, chemistry, medicine, physiology, literature and psychology,

as well as 20 honorary doctorates.

Today, he operates a palm farm in Orlando, FL, a production company in Sydney, Australia, and a sculpture company in Burbank, CA

We must agree Story Musgrave has charted a remarkable course throughout his life and career.

Mid-Continent Aircraft Corporation is looking for an Aircraft Sales person with turbine experience. A CFII is also needed. Please call 800-325-0885 and ask for Dick Reade.

Mark Hartz, Story Musgrave, Dennie Stokes, Dick Reade
