### Juan Phillips steps up - and into a great position

*News from Thrush:*

We are very proud to announce we have strengthened our sales, service and support presence in Central and South America with the addition of Juan Phillips as our new Vice President of International Sales. Central and South America have both seen remarkable growth these past few years and with Juan's leadership and experience, we will now be able to ensure we continue to keep pace with the growing number of Thrush customers in the region.

Juan's coming on board allows us to provide additional boots-on-the-ground resources in this vibrant territory. His new position will bring him close to local operators and pilots and to deliver on-site training to ensure efficient and safe operations for current and future Thrush operators there.

Juan comes to Thrush from Africair, and brings a total of over 20 years of experience in ag aviation in a variety of sales, training, and product support roles. He holds both IA and A&P ratings, which gives him a unique ability to serve clients from multiple perspectives - from direct sales in Bolivia, Ecuador, Colombia and Peru - to oversight of our service and support network across the continent.

Over the years, Juan has been a true partner and friend to Thrush - and we are honored to now call him a colleague, as well. He can be reached at 786-702-9098 or: [jphillips@thrushaircraft.com](mailto:jphillips@thrushaircraft.com)

### Independence Day

Independence Day, observed on July 4, commemorates the Birthday of the United States. As the anniversary of the adoption of the Declaration of Independence, it is a major American holiday and an important time for celebration.

On June 11, 1776, the colonies' second Continental Congress, meeting in Philadelphia, formed a committee with the express purpose of drafting a document that would formally sever their ties with Great Britain. The committee included Thomas Jefferson, Benjamin Franklin, John Adams, Roger Sherman and Robert R. Livingston. The document was crafted by Jefferson, who was considered the strongest and most eloquent writer (never the less, a total of 86 changes were made to his draft!) . The final version was officially adopted by the Continental Congress on July 4th.

The Declaration of Independence has since become our Nation's most cherished symbol of Liberty.

Happy Birthday America.

## **Our Mission:**

### ***To keep you flying.***

Since 1949, Mid-Continent Aircraft has been the leader in Agricultural Aviation by providing a variety of services that exceed our customers' expectations.

We are committed to the advancement of general and agricultural aviation technology.

As we move into each day, we will continue to grow with your business and provide the tools you need to be a success.
