

## MID-CONTINENT AIRCRAFT CORPORATION

# Planegram

Each year Mid-Continent Aircraft Corporation presents the Wings of Agriculture Award at the Canada AAA meeting. This year's recipient was James Pottage of Provincial Airways, Moose Jaw, Saskatchewan. Congratulations James.

As the saying goes: “More is almost always better” and that’s very true with the optional dual cockpit versions of the Thrush 510P and 510G. The specifications and flight characteristics of both aircraft are virtually identical to their single-cockpit cousins - but with the added ability to carry up to 200 lbs of cargo, equipment, or even additional pilot or observer in the rear seat - the

utility of your Thrush can be increased even more.

From carrying growers up for a bird’s eye view of their fields, to ferrying crew members to remote locations, to working with an onboard observer to view activities and obstacles below - no aircraft works better than a dual cockpit Thrush.

And if flight training is your mission

plan, the aft cockpits of both the Thrush 510P and 510G dual cockpit aircraft can be equipped with a full complement of flight instruments and controls, including the MVP-50 digital display unit.

In summary, regardless of the mission, a dual cockpit Thrush is capable of handling it with the same smoothness and safety operators and pilots expect from every airplane Thrush builds.

## **Our Mission:**

### ***To keep you flying.***

Since 1949, Mid-Continent Aircraft has been the leader in Agricultural Aviation by providing a variety of services that exceed our customers' expectations.

We are committed to the advancement of general and agricultural aviation technology.

As we move into each day, we will continue to grow with your business and provide the tools you need to be a success.

**MID-CONTINENT AIR-CRAFT CORPORATION** is located in Hayti, Missouri, 80 miles north of Memphis, Tennessee. Although Hayti is not the geographical center of our nation, **MID-CONTINENT** is the center for all ag aviation needs.

With excellent daily truck freight lines, air freight, Federal Express, and UPS delivery capability, **MID-CONTINENT** has and will continue to cover the world.

## **When You Need Parts**

As many of you know Mid-Continent Aircraft has one of the largest parts departments in the Ag Aviation Industry. We are a distributor for many products including Agrinautics, Cessna (Single engine and AG), CP Products, Thrush Aircraft, and Transland, just to name a few.

What some people do not know is that we also stock and sell Air Tractor, AFS Check Valves, Cleveland, Lane brakes & fans, Gentex helmets, Rapco brakes and discs, Tee-Jet Check Valves and other spray equipment.

We are always trying to save our customers money by finding the best prices and deals.

We are running a special on Rapco this month. Call us and mention the mailer and we will include free brake rivets for each RA066-108 pad bought. This is a \$1.00 saving per pad. On a Thrush or Air Tractor that is up to 24.00 a lining charge.

Remember our motto:

*Serving Ag Aviation since 1949*

## **We've Got You Covered**

It takes more than insurance knowledge to provide proper aviation coverage in this very specialized field. Our insurance agency is just one part of a full service aviation center with over 56 years of experience. We have the knowledge and experience of the entire MCAC Team. This knowledge works for you as it keeps us in tune with the industry and gives us an insight that you seldom find in other agencies.

As Insurance Brokers we have access to all available markets. This enables us to provide you with the coverage you need at competitive rates and with service that is unmatched in the industry. Please complete and return the Quotation Request which you can download below for a no obligation proposal on your coverage within 30 days of your expiration date. If you are short on time, call us and we will expedite your quote.
